Overview

- The Fund returned -2.29% in September 2015. As at 30 September 2015 the Fund was worth \$28.10 billion.

	As at 30 September 2015 (unaudited)
Fund size	\$28.10 billion
Value of NZ investments	\$4.0 billion or 15.1% of investments*
Return since inception (30 September 2003)	9.39% p.a.
Last 5 years	13.47% p.a.
Last 3 years	15.34% p.a.
Last 12 months	5.19%
September 2015	-2.29%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

Performance summary

- The Fund measures its performance in two ways:
 - relative to the NZ 90 day Treasury Bill return; and
 - relative to a passive [Reference Portfolio](#) benchmark.

Long-term performance expectation*	0.45%	5.91%	5.38%	5.27%	7.01%
